DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 6-9 and 11 are depended upon a cancelled claim.

Claim 10 recites the limitation "an access plate" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Nisley (US Patent No. 3,470,901).

Nisley discloses a case (74) that has a built-in flexible hose (32) connecting a soft tube (22) with a water outlet (34) and a valve plate (36).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kohn et al (US Patent No. 5,435,342) and Kennedy (US Patent No. 3,175,575) discloses a similar water box.
